Lazar Kostic

Software Developer

Summary

I have worked with JavaScript, C#, SQL, C++, and Python, with a focus on both frontend and backend development. My experience includes building web applications using React on the frontend and .NET on the backend. I enjoy exploring and implementing innovative solutions and value the opportunity to collaborate in team environments.

Personal Details

Birth date
19/03/2001

Location
Belgrade, Serbia

Languages

Serbian

English

Work Experience

I have worked in various roles, such as waiter, driver, and other student jobs. Additionally, I lived in the USA for five months and worked there. My technical experience is as follows:

Frontend Developer - Intership

CodeUp   09/2023 - 10/2023

As an intern at CodeUp Company, I gained experience in web application development using React and Tailwind CSS. I participated in building dynamic user interfaces and learned important development practices, such as writing clean and modular code. This internship allowed me to enhance my technical skills and gain a better understanding of teamwork in projects.
